

MID-HUDSON RADIO CONTROL SOCIETY
General Meeting Minutes

Date: 1/10/2011

Start time: 7:10 PM, at the Poughkeepsie United Methodist Church

Present: 28 members and guests

- Rick Rizza brought in his Hawker Typhoon built from a Guillows free flight kit. It is converted to electric r/c with a nice painting and detailing.
- Otto Loorents showed off his work in progress, scratch built "Dornier Model J" float plane. It will be powered by twin Magna 52s.
- Whitney Philbrick brought in his BH Models, F4U Corsair. With a 90" wingspan and to be powered with a 50cc gas engine, overall weight is targeted around 20 lbs.
- Warren Batson noted that the "Frost Fly" was attended by seven people. All had a great time with flying until 11:30. If there is continued interest from the club members, an additional event can be scheduled in February.
- John Philbrick mentioned that the club Holiday Party is all set for this Friday at the church. Gathering time is 6:00, with eating at 6:30.
- Bob Allen discussed the upcoming "RC Scale Building Seminar". The event is well advertised. Everything is coming together nicely and there is a possibility for a good turnout. There might be a need for a portable PA system.
- Whitney went over the financial report.
- Warren noted that the membership application forms are available on the club's website. Dues are being accepted now.
- Jesse Aronstein mentioned that the Old Rhinebeck Aerodrome's model museum is planned to be torn down and replaced with a new structure along with the gift shop. There is a need for storage space for the models in the meantime. Let Jesse know if you are interested in helping out.

Meeting adjourned: 8:05 PM
