

MID-HUDSON RADIO CONTROL SOCIETY
General Meeting Minutes

Date: 2/1/2010

Start time: 7:22 PM, at the Poughkeepsie United Methodist Church

Present: 18 members and 1 guest

- Warren Batson did a demonstration and instruction session on covering techniques using Solartex iron on film before the meeting.
- Jonathan Elie brought in several of his home designed blue foam aircraft creations. An aerobatic design, and F-117 jet design, and a star shape design that made from house trash items for a school contest.
- Ron Revelle brought in an old Hangar 9, 60 sized J-3 Cub that someone had given to him. One question was if it was worth the effort to repair this heavy model.
- Warren talk about his D-7 project and some of the accomplishments made since the last meeting. He pointed out a technique that he is using on how to locate cable exit points through the fabric covering.
- Warren noted that there was an effort made to find out if the owners of the Stormville Airport would be open to the club leasing some of the land for model use. They were not open to the idea at this time.
- Warren also noted that the RedWing field will be getting a lot of use with the school sports programs. There will be a meeting with the sports people to discuss the field usage.
- There are several events coming up in the next few weeks. The WRAM show on the weekend of the Feb 21, and the CPAA Flea Market on March 13, in Lebanon PA. Check the club's web calendar for more information.
- Whitney Philbrick went of the club treasurer's report.
- The next club general meeting will include an informal show and tell session to give people an opportunity to talk about what they are working on.
- The work party this spring for the Wallkill field will include efforts to change and improve the layout of the parking and pit area. New designs are being worked on now.

Meeting adjourned: 8:00 PM
