

MID-HUDSON RADIO CONTROL SOCIETY
General Meeting Minutes

Date: 3/1/2010

Start time: 8:00 PM, at the Poughkeepsie United Methodist Church

Present: 16 members and guests

- Warren Batson mentioned that there is a request from a local Boy Scouts troop for us to participate in the upcoming Jamboree at the Dutchess County Fairgrounds on May 15. We are asked to put on a static display of models and flight simulators in one of the buildings and possibly some flying demos outside at the oval track. A vote was held on participating or not. All voted yes with no “nays”. The club will submit for coverage with the AMA. Participation in this event will count towards club work hours.
- Warren noted that at the present time there are approximately 51 members that have renewed for this year.
- Warren brought up the subject of possibly acquiring a mower by the club to supplement grass cutting activities at the Wallkill field. The need is there to keep on top of the quick growing grass in addition to the normal mowing schedule. The mower would be stored at the field in the shed for members to use after initial training on a controlled basis. Jesse Aronstein made a motion for the club to go ahead and purchase a ride-on mower, Rick Rizza second the motion. All voted yes with no “nays”.
- Whitney Philbrick reported on the club’s current financial status.
- Jesse led a brief discussion on floats for model aircraft. Some samples were brought in for viewing.

Meeting adjourned: 8:30 PM
