

Scale R/C Aircraft Building Techniques Seminar

Saturday January 25, 2014 – 10AM

(Snow date – February 1, 2014)

[Featured Guest Speaker](#)

Roy Vaillancourt (Vailly Aviation)

Join the [Mid-Hudson R/C Society](#) in welcoming back Roy to present the fourth edition of this Scale Building Seminar. This year Roy will be sharing his latest project – 1/3 Scale RAF SE5

Topics for Discussion:

10:00 – 12:00 Roy's RAF SE5, Featuring:

- Research
- Design
- Simple Jigs & Fixtures
- Metal Forming
- Vacuum Formed Parts
- Soldering, Brazing & Welding
- Engine with Gear Reduction

12:00 – 1:00 Lunch break

1:00 – 3:00 Open Discussion

This SE5 is Roy's latest design developed over the past year for the sport scale enthusiast and will be presented "in the bones". The Open Discussion session is completely intended for audience participation discussing any of your scale modeling questions. Topics may range from initial drawings through building techniques and fabrication to finishing and detailing your project.

Location:

**Poughkeepsie United Methodist Church
Recreation Hall**
2381 New Hackensack Road (RT. 376)
Poughkeepsie, NY 12603
